# 14<sup>th</sup> Annual Meeting of Asia-Pacific Health Accounts Experts

This year's meeting will offer a platform for sharing experience and expertise on the development of health accounting systems in the region, and enable an open discussion about methodologies, data quality and comparability, and related ongoing initiatives.

The themes of the 2.5-day workshop are as follows :

1. An overview of the SHA 2011 framework including discussions in regards to distribution of expenditure by disease, capital expenditures and data gaps
2. Policy implications and relevance of financing scheme revenue classifications
3. Review of data quality challenges and potential solutions
4. Quality and data collection of private sector expenditures on health
5. Overview of global and national measures of primary care expenditures
